Introduction

Our page is available at <https://mtvdb.bot.nu/>

We received the list of problems found by our colleagues. We don't agree with most of them. However, some of the problems have merit and therefore we implemented the solutions suggested.

Problem resolution

| Nº | Agree? | Reason | Agree with the solution? | Reason |
|----|--------|---|--------------------------|-------------------------|
| 1 | No | Not a design problem. For demonstration purposes, the user's location is fixed. | No | No solution is required |
| 2 | No | Not a design problem. Our movie dataset does not include sorting details, not allowing for sorting of movies. | No | No solution is required |
| 3 | No | Not a design problem. Our movie dataset does not have movies of every genre. | No | No solution is required |
| 4 | No | Not a design problem. Our movie dataset does not have sorting details | No | No solution is required |
| 5 | No | Not a design problem. For demonstration purposes, there is only one user. | No | No solution is required |
| 6 | Yes | - | Yes | - |
| 7 | No | Considering the design is very intuitive, a help/tutorial button is not necessary. | No | No solution is required |
| 8 | Yes | - | Yes | - |
| 9 | No | When the user disagrees with sharing the location, going back to the home screen is feedback. | No | No solution is required |
| 10 | Yes | - | Yes | - |
| 11 | Yes | - | Yes | - |
| 12 | No | Those "extra" movie details are in the movie page next to other movie details. They don't need to be moved. | No | No solution is required |
| 13 | Yes | - | Yes | - |
| 14 | Yes | - | Yes | - |
| 15 | Yes | - | Yes | - |
